

Tiles laid and fixed in accordance with manufactures instructions

Underlay draped between rafters

Insulation in accordance with current British Standards and building regulations

Well sealed ceiling board

Vapour control layer

50 x 25 tiling battens or to BS 5534

Verge clip twice nailed to tile batten

Mortar bedded verge
1 part building sand
2 parts sharp sand
1 part cement

Undercloak Strip

Cavity closer

NOTES:

When using a vapour permeable (LR) underlay, Forticrete in line with BS5250 recommend that the batten cavity is ventilated from eave to ridge.

Underlay should be positioned beneath undercloak strip.
